

### Meeting the Needs of Learners with an EHCP and / or ESOL

Our Hub caters for the needs of all learners, including those with EHCPs and ESOL, by providing an inclusive curriculum.

We provide an individualised and differentiated curriculum, along with bespoke resources, to ensure all learners have equal access to the entire curriculum and are enabled to achieve their maximum potential. We also provide high staff to learner ratios to provide additional support where needed.

We endeavor to provide staff who speak the learner's first language where possible. Learning materials will be provided in the learner's first language as required, along with online resources.
